Would an extra $20,000 Profit per month help?

Our Dance Dollar System can dramatically add to your profits. You may impose service charges on customers, dancers or both (20% to the house is common); many Dance Dollars expire without being redeemed. You make 100% on those.

Employee theft is difficult; forgery impossible.

Our smallest customers sell around $50,000 per month in Secure Dance Dollars ($10,000 to their bottom line); our largest, >$1,000,000 per month gross (>$200,000 to their bottom line). An average club should easily net $20,000 per month from Secure Dance Dollars. Our system makes this safe and easy, with full accountability.

If this is enough money to be worth a few minutes of your time, call us toll free at 888-REPWARE to discuss how we can help you earn more.

Cabaret Dance Dollar System

Quality Cabaret Software
with extraordinary
customer service

Some Important Features of the Cabaret Dance Dollar System

Dance Dollars are coupons good for dances purchased by customers on their credit cards. Many clubs have realized the profit to be made from this added revenue source by charging fees to the customer, dancer, or both, as well as making it easier for the customer to spontaneously interact with the dancers.

Would you like to offer this service but are afraid of forgery or employee theft?

Do Dance Dollar systems seem too cumbersome and complicated?

Do you currently sell Dance Dollars but have less than adequate controls?

ReportWare has created a club-tested, proven system that represents the combined business wisdom of top Adult Cabarets from around the country. We've served the industry since 1995 and each year added more improvements based on customer suggestions.

Here's How It Works:

Dance Dollars are set up as items for sale in your POS in whatever denominations are desired, the same way different brands of beer are set up. When a customer orders Dance Dollars, POS processes this request, authorizes the customer's credit card and electronically passes the order information to ReportWare. ReportWare automatically prints the quantity and denominations ordered. No Dance Dollars are issued without authorization.

The Dance Dollars are printed on special paper stock. This paper is pre-printed with your artwork and is unique to your club. At the time of sale, each Dance Dollar is individually coded using an unbreakable algorithm. A bar code is printed for easy redemption. Each Dance Dollar set to expire a set number of days after purchase. The computer tracks when each dollar was purchased, sold, and redeemed and by whom.

The Dance Dollars are delivered to the customer along with the credit card slip for signature.

At any time during her shift, or at anytime prior to the Dollar expiring, the Dancer receiving the Dollars may turn them in for cash (less any service fee you impose).

As each ticket is turned in, the bar code is scanned and the computer marks it in the system as redeemed. It cannot be redeemed again, even if it is stolen or perfectly copied.

The Dance Dollar redemption information is passed to the Dancer's timekeeping record and gives you full wage credit for each ticket redeemed.

Full and complete accounting is provided and you have management information, control and reporting beyond anything you've had before.

POS Interfaces:
· ReportWare's Secure Dance Dollar System has data interfaces with all major POS vendors, including:
· Micros-3700, 9700, & Simphony.
· Aloha
· Squirrel
· Digital Dining
· Future POS— and many more!

This software provides full network support – and full native integration with Windows, Mac, *iPad and iPhone!*

ReportWare's included Cabaret Management Software also provides many other useful functions unique to your business, such as taxi spiffs, personnel file details, house fee and locker rental imposition and tracking, DJ interface to show the DJ the status of each dancer in the building, and much, much more.

Hardware Notes:
· For multiple workstation support, a server computer should be installed at a convenient location; all stations require network cabling connections.
- Thermal and Boca type "hard" ticket printers are also supported.

Additional Features:
· Multiple security levels & audit trails
· 24 hour / 365 days a year toll-free phone support.
· On-site installation and support.
· Also prints gift, food and beverage, and champagne certificates in any denominations you choose.
· Dance Dollars have your design and look however you like.

Price:
· Call us for a price quote that includes not only our Cabaret Dance Dollar software, with data bridge from your POS, but also six months of free upgrades and toll free technical support.
